

This is why we hope

This is why we hope,
Hope is something you have confidence and knowing that you will be able
to achieve something, Hope is something we all need, because it fulfills
our dreams,
Make mighty dreams, have hope, fulfill your dream,
If we have hope, we know not to quit our means,
When you have confidence, you will know your role,
When you have a problem, hope is the idea that gets the mole out of the
hole,
Even when you are sad family, friends, and something or someone will
give you hope,
Even when you are frightened, hope will bring you to might, that is why
you'r bright,
When you have hope,
you will never say no for a competition,
When you're competitive, hope is a rope that leads to victory,
Don't complain about something, your view should be a positive thing,
This is why I am inspiring you to hope,
I wish I inspired you to hope.
